PROFESSIONAL SUMMARY:

- Full-Stack Developer specializing in React, Next.js, Node.js, and PostgreSQL. Experienced in building scalable web applications including e-commerce platforms, tournament systems, and management dashboards. Passionate about solving real-world problems through clean architecture and modern development practices.

SKILLS:

Front-end:

- React.js
- Next.js
- TailwindCSS
- HTML5, CSS3

Back-end:

- Node.js
- Express.js
- NestJS

Database:

- MongoDB
- PostgreSQL
- SQL

Tools:

- Git
- GitHub
- Trello
- Swagger

SOME PROJECTS:

PlayStation Tournament App

- A competitive gaming platform that pairs players randomly to compete in PS5 matches using a Swiss-system format. Ranks players based on games played, wins, and losses, featuring live leaderboards, round results, and detailed player dashboards.
- [Live Demo](#) | [GitHub Repository](#)

Lena Luxe Wear

- A modern fashion e-commerce web app that showcases stylish clothing collections with a clean UI, product browsing, and responsive design for seamless shopping experiences.
- [Live Demo](#) | [GitHub Repository](#)

Maedot Consulting

- A construction consulting management app that helps organize clients, projects, and analytics dashboards.
- [Live Demo](#) | [GitHub Repository](#)

Yzezun Delivery

- A food delivery system with admin and customer panels, real-time order tracking, and delivery management.
- [Live Demo](#) | [GitHub Repository](#)
